

International Baccalaureate PYP Report Card

Description of Assessment Scores: Units of Inquiry for students in grades K-5 are reported using a grading scale of 1-4. The chart below indicates the level of performance associated with each number in the scale. Student academic performances are assessed using a variety of tools. Students will typically perform in the highest range of scores in the areas in which they are excelling and working well above grade level standard. Scores in the lower range indicate students may need additional support both at school and home.

4	A consistent and thorough understanding of the required knowledge, concepts, and skills, and the ability to apply them in a wide variety of situations. There is consistent evidence of analysis, synthesis, and evaluation.
3	A good general understanding of the required knowledge, concepts, and skills, and the ability to apply them effectively. There is some evidence of the skills of analysis, synthesis and evaluation.
2	A limited understanding of the required knowledge, concepts, and skills, and the ability to apply them only with full support.
